## Sports Leaders Awards

Springfield School continues to deliver a rich programme of sporting activities and events throughout the year. We have recently entered a Rowing Tournament where the boys team won the best relay-squad award.

Springfield students have represented Crewe and Nantwich in the Regional Boccia finals in Liverpool this term. We played really well and received Boccia medals for our teamwork and skill.

We also won trophies in a Football Festival held by the Cheshire FA at Moss Farm. Springfield entered two teams and came away with a trophy each! The teams looked amazing in our new kits, which were kindly donated by Friends of Springfield.

It never ceases to amaze me how enthusiastic and determined Springfield students are towards sport and fitness activities. With the support of our dedicated team of staff, students travel to other schools and venues to meet and compete against teams in a wide variety of activities. They always try their best and make us so proud with their fortitude, skills and mutual respect for others.

This term we will host our own Springfield Sports Festival, where we invite other schools to come and join us in a carousel of skills tests. Our Friends at MMU and the School Games organisers will send specialist tutors to lead the activities. We hope to host seven additional schools at the event later in May, in what will be a fantastic and fun day for all.

Sports Club continues to grow, with two lunchtime sessions, after-school club on Tuesday evening and swimming club on a Wednesday. All clubs are very popular and well attended. Our next development is to embed healthy lifestyle activities at lunchtimes for those who would like to play games. The Sports Leaders are ready to deliver fun activities. Springfield Sports Department are currently preparing a bid for new equipment to support the development of these new activities during breaks and lunchtimes.

These strategies, activities and our involvement in the events and tournaments will help our future bid for the Sainsbury's Schools Games Gold Award for Physical Education 2017-18.
