

Supported Internships

Fabulous Supported Internship- with amazing outcomes for young people.

If you have any young people on your caseload- or know of anybody who would benefit from this programme, please get in touch.

Entry criteria for the Springboard Supported internship

- EHCP
- Is 18 years old or younger on the 31st August 2021
- Wants to work (but will need support to transition into employment)

Please take 5 minutes out to watch the clip below- it features the employer, our intern (Jamie)- and the whole Supported Internship team including job coach, school, employer liaison and the Local Authority... It nicely summarises the programme and demonstrates the impact of what a supported internship means for both employers and our young people and their families. The supported internship is a life changing programme for the young people we work with- with huge benefits to the employer too

[The Springboard Project YouTube page](#)

Please get in touch if you would like to refer somebody/ or talk through the suitability of a young person if you are unsure

Although the Springboard Project is based in Crewe- employment opportunities will be sourced close to where the young person lives/ can travel to.
